

Instant Virtual Card for Relocation Payments

Relocation reimbursements made easy and more secure - no card required

HomeServices Relocation's (HSR's) new virtual Instant Card is a fast, efficient and simple way for employers to send relocation allowances or lump sum payments to transferees and for transferees to make relocation-related purchases. The Virtual Card replaces the need for personal credit cards, personal funds or manual checks and simplifies allowances and lump sums for your employees.

Instant Card recipients receive an email to download their new mobile card, issued by U.S. Bank, to their Apple Pay or Google Pay Wallet in a single click. They can begin using their relocation allowance immediately, either in-person or online using the full account number and CVV.

Instant Card funds are safe and secure. HSR and the employer maintain control and visibility to all purchases and associated relocation spend using online program management and reporting tools.

Instant Card features and benefits
